Web Accessibility Resources

SPS Distance Learning – Accessibility Guidelines
tiny.cc/spsguidelines

The SPS DL team provides answers to common web accessibility questions, including "How do I make my audio and video accessible?" and "How do I format an accessible webpage?"

SPS Distance Learning Blog – Alt-Text for Complex Images tiny.cc/compleximages

Learn how to write useful, detailed alt-text for complex images like graphs, charts, maps, and diagrams.

SPS Distance Learning Blog – Accessibility Posts
tiny.cc/accessibilityblog

The SPS DL team write blog posts on specific accessibility topics, such as captions, online student accommodations, and WCAG 2.0 standards.

AccessibleNU northwestern.edu/accessiblenu

Northwestern's office students with disabilities. They follow four core values of accessibility, direct service, reasonable accommodation, and commitment to diversity.

UDOIT Canvas Tool tiny.cc/UDOIT

A Canvas app that will scan a course for accessibility issues and generate a report that includes information on how to correct common issues.

University of Washington DO-IT Resources
washington.edu/doit/resources-5

The UW Accessible IT group provides information on accessibility laws, policies, and standards, procuring accessible IT, and other topics in addition to resources for students with disabilities and educational materials for faculty and staff.

WebAIM webaim.org

Offers in-depth resources on web accessibility for all types of web design.

CAST – Universal Design for Learning cast.org/udl

Universal Design for Learning is based on scientific research into human learning and emphasizes learning design for *all* people.
